I emailed Mr. Mattus asking him whether he made any progress on finding a laptop that can be used to demonstrate the installation of BEMOSS.

I picked up a department laptop from Mr. Mattus today. He cleared the partition completely, so no time had to be spent removing a previous operating system from the machine. Then, I installed Ubuntu 16.04.6 LTS on the system with a bootable USB flash from the link provided on the BEMOSS installation guide.
